

Data Flow Diagram

Date: 30 September 2026

Team ID: SWTID-2026-5793

Project Name: Standard Laptop Procurement Automation using ServiceNow Flow Designer

Maximum Marks: 2 Marks

DFD – Standard Laptop Procurement Automation

External Entities

E1 – Employee

Submits the Standard Laptop request through the Service Catalog.

E2 – Manager / Approver

Reviews and approves the requested laptop.

E3 – Hardware Team

Receives and processes the Catalog Task.

Processes

P1 – Submit Laptop Request

Receives the employee's Standard Laptop request through the Service Catalog.

P2 – Process Approval

Sends the request for approval and receives the approval decision.

P3 – Automate Task Creation

After approval, Flow Designer creates a Catalog Task with the required short description and assigns it to the Hardware group.

Data Stores

D1 – Requested Item (RITM)

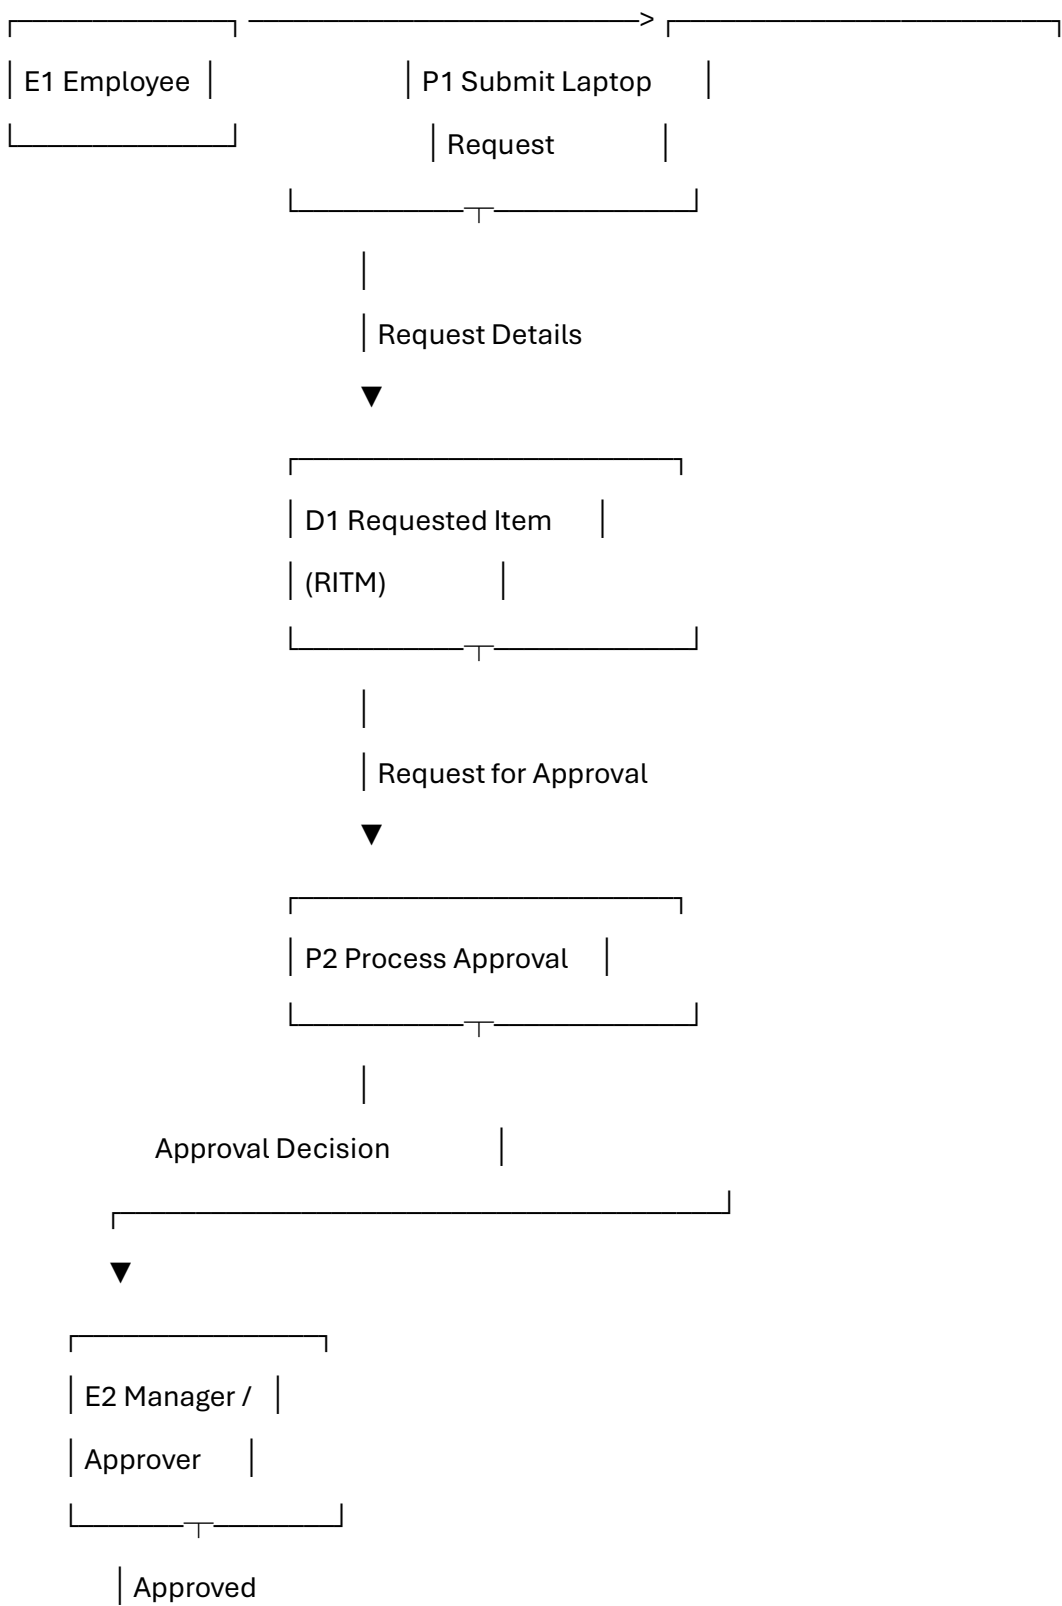

Stores the Standard Laptop request and its request details.

D2 – Catalog Task

Stores the task created after approval for Hardware processing.

Data Flow

Standard Laptop Request
