Date: 30 September 2026

Team ID: SWTID-2026-5793

Project Name: Standard Laptop Procurement Automation using ServiceNow Flow Designer

Maximum Marks: 2 Marks

Technology Stack Details

S.No	Architecture / Component / Layer	Technology Chosen	Justification / Purpose
1	Frontend / Client-Side	ServiceNow Service Catalog	Provides the user interface for employees to select and submit the Standard Laptop request.
2	Backend / Server-Side	ServiceNow Flow Designer	Automates the approval-based workflow, creates Catalog Tasks, updates the Short Description, and assigns tasks to the Hardware group.
3	Database / Data Storage	ServiceNow Platform Database	Stores Requests, Requested Items (RITMs), approval information, and Catalog Tasks required for the procurement workflow.
4	Cloud / Hosting / Deployment	ServiceNow Cloud Platform	Provides the hosted environment for the Service Catalog, Flow Designer, requests, approvals, and task management.
5	Version Control & CI/CD	Not Used	The current project is developed and configured directly within the ServiceNow platform and does not require a separate version-control or CI/CD tool.
6	Third-Party APIs / Other Tools	ServiceNow Flow Designer	Used as the main automation tool to connect the request, approval process, and Catalog T
