

Project Initialization and Planning Phase

Date: 30 March 2026

Team ID: SWTID-2026-5793

Project Name: Standard Laptop Procurement Automation using ServiceNow Flow Designer

Maximum Marks: 3 Marks

Define Problem Statements – Customer Problem Statement

PS-1

Problem Statement (PS)	Standard Laptop Procurement
I am (Customer)	An employee who needs a standard laptop for official work
I'm trying to	Request and receive a standard laptop through the organization's IT procurement process
But	The request requires approval and manual creation and assignment of procurement tasks
Because	The existing process involves multiple steps between the Service Catalog, approval process, and hardware team
Which makes me feel	Delayed and uncertain about the status of my laptop request

PS-2

Problem Statement (PS)	IT Hardware Team
I am (Customer)	An IT hardware team member responsible for processing laptop requests
I'm trying to	Process approved standard laptop requests and prepare them for fulfillment
But	Catalog tasks have to be manually created and assigned after approval
Because	There is no automated workflow connecting the approved request to the Hardware assignment group

**Problem
Statement (PS)**

IT Hardware Team

**Which makes me
feel**

That the process is time-consuming and may lead to delays or
inconsistent task assignment
